Four HI5 redemption centers to close temporarily due to mechanical issues

All of the certified HI5 redemption centers operated by Kaua'i Community Recycling Services (KCRS) will be temporarily closed beginning Saturday, March 19 due to mechanical problems with the scale that weighs the containers prior to processing.

The KCRS centers are located as follows:

- Kekaha, Kekaha Road, across from the old mill
- Kōloa, 2810 Po'ipū Road, next to the fire station
- Kapa'a, 962 Kipuni Way, Arzadon Industrial Park
- Kīlauea, 5-2723 Kūhiō Highway, behind Kaua'i Mini Golf

Efforts have been made to expedite repair of the scale. KCRS's centers will resume service once repairs have been made. It is anticipated that these sites will reopen within a week. For updates, please call James Higginbotham at 645-1676.

The redemption center at the Kaua'i Resource Center in Līhu'e, as well as those operated by Reynolds Recycling in Līhu'e and Kapahi will be open as usual. Please go to www.kauai.gov/hi5 for more information on these locations and their hours of operation, or call the County Recycling Office at 241-4841.
